

CLEAN VERSION OF ENTIRE SET OF PENDING CLAIMS
SUBMITTED IN ACCORDANCE WITH 37 CFR 1.121(c)(3)
IN RESPONSE TO OFFICE ACTION OF 16 AUGUST 2002

CLAIMS

1. (Amended) An array of disposable diaper configurations designed to fit wearers at different stages of development, the array comprising:
 - a first disposable diaper configuration, the first disposable diaper configuration including a chassis designed with specific features to correspond to a wearer's first stage of development;
 - a second disposable diaper configuration, the second disposable diaper configuration including a chassis designed with specific features to correspond to a wearer's second stage of development;
 - and
 - a third disposable diaper configuration, the third disposable diaper configuration including a chassis designed with specific features to correspond to a wearer's third stage of development.
2. (Amended) The array of disposable diaper configurations according to claim 1 wherein the wearer's first stage of development comprises a pre-locomotive phase wherein the wearers include newborn infants and immobile toddlers and wherein the specific features include blanket like feel and an umbilical notch.
3. (Amended) The array of disposable diaper configurations according to claim 1 wherein the wearer's second stage of development comprises a crawling phase wherein the wearers are capable of scooting, rolling, and crawling and wherein the specific features include a contoured shape comprising a narrow crotch, a stretchable high back region, and a low cut front region.
4. (Amended) The array of disposable diaper configurations according to claim 1 wherein the wearer's third stage of development comprises a walking phase wherein the wearers are capable of standing, walking and beginning to run and wherein the specific features include flexible fasteners and high stretch sides.
5. (Amended) The array of disposable diaper configurations according to claim 1 further comprising a fourth disposable diaper configuration, the fourth disposable diaper configuration including a chassis designed with specific features to correspond to a wearer's fourth stage of development.
6. (Amended) The array of disposable diaper configurations according to claim 5 wherein the fourth stage of development comprises a learning phase wherein the wearers are capable of participating in a

dressings experience and wherein the specific features include a pull on chassis designed to look like underwear.

7. (Amended) The array of disposable diaper configurations according to claim 6 further comprising a fifth disposable diaper, the fifth disposable diaper configuration including a chassis designed with specific features to correspond to a wearer's fifth stage of development.
8. (Amended) The array of disposable diaper configurations according to claim 7 wherein the fifth stage of development comprises a training phase wherein the wearers are undergoing toilet training and wherein the specific features include a wetness indicator that enables the wearer to recognize the discomfort associated with wetting.
